SECTION 4 - STANDARD CONDITIONS

- A.** Vendor warrants that the prices charged in connection with this order conform to all applicable government regulations. Vendor further warrants and agrees to defend and hold harmless the Vendee from and against all suits or claims arising herefrom for infringement of any patent rights held or alleged to be held by others.
- B.** Vendor acknowledges Vendee's status as a consumer if a sales tax is applicable in the purchase hereunder. Vendor agrees to pay such taxes.
- C.** Unless otherwise stipulated on the face of this agreement, Vendor shall designate shipping routes and methods (subject to other provisions hereof) and shall be fully responsible for the selection of the most expeditious and reliable means of accomplishing delivery to destination according to the terms hereof. While Vendor will not be responsible for shipping delays of a general or industry-wide nature such as general transportation strikes, embargoes, acts of God or national emergencies, Vendor agrees to exercise all due diligence to anticipate and mitigate the effects of such delays, and shall extend full cooperation to Vendee in recovery and re-routing of such shipments when and as required to meet critical delivery schedules.
- D.** Unless otherwise stipulated on the face of this agreement, terms shall be f.o.b. jobsite, freight prepaid. At Vendee's option, a minimum handling charge of \$5.00 may be assessed against vendor to partially defray the additional clerical expense attendant upon making of separate disbursements and obtaining verification of payment from third parties where shipments have been made on a "freight collect" basis.
- E.** Vendor acknowledges right of Vendee to cash discount terms for prompt payment of invoices under this agreement equally favorable to those of terms granted other trade customers of Vendor. Vendor warrants that such equally favorable terms have been offered, or have been inserted herein at the time of the execution of this agreement. Where payment terms have not been stipulated in the space provided therefor, Vendor shall insert terms according to the foregoing or, in the event his/her failure to do so, Vendee shall have the option to apply the cash discount terms normally in use for the type of goods covered by the order. Vendor further agrees that any cash discount may be taken by Vendee on either the 10th or 25th of the month, whichever date next succeeds date of receipt of invoice in Vendee's office.

In the event invoice to be discounted is for goods deemed by Vendee to require conformation of delivery to jobsite in sound condition, Vendor further agrees that the discount terms may be extended to provide reasonable time, not to exceed 5 days (Saturday, Sunday and holidays excluded) to permit Vendee to secure such confirmation from field sources. On any order for which Vendor does not grant a cash discount, the payment terms hereof shall be the same as those applying to the Vendee under the prime contract or, in sole discretion of Vendee, net 30. In no instance shall invoices rendered for goods hereunder be considered due until 5 days following receipt of payment therefor to Vendee by the Owner if any act or omission of Vendor shall have contributed to delay or omission of periodic or final payment under said prime contract. Vendor further agrees that no payment hereunder shall be considered due until and unless delivery of the goods for which invoices are rendered has been accomplished in a satisfactory manner and in full compliance with the terms hereof.

- F. Vendor acknowledges and warrants that payment by Vendee, under this agreement, is conditioned upon timely delivery to the Vendee of goods fully complying with the contract documents in sound, usable and acceptable condition. Nothing in this agreement shall be construed or act to create a contractual relationship between Vendee and any shipper of goods hereunder. It shall be Vendor's sole responsibility to arrange for delivery of goods without liability to the Vendee.
- G. The parties agree that in the event any controversy should arise between them as a result of this purchase agreement, then in that event, the Jefferson County District Court in Golden, Colorado shall be the forum in which the parties agree to try and have heard any matters of litigation arising out of such controversies. In the event the said court shall find, as a matter of law, that it does not have jurisdiction over the subject matter of the litigation, then such litigation may be heard by such other court in the State of Colorado, or elsewhere which does have jurisdiction over the subject matter related to such litigation. It is further agreed that any written notification or communication connected with this order shall be deemed delivered and received by Vendor when mailed or delivered by hand to an agent or representative of Vendor; or mailed to Vendor at address appearing hereon or to any office maintained by Vendor.
- H. When this agreement covers goods and/or services to be used and/or incorporated in projects governed by prime contracts with the United States government, all applicable clauses affecting manufacturers and suppliers shall be, and are hereby adopted and incorporated herein by reference and shall have all the same force and effect as if recited herein in full. Where applicable, Vendors may be required to furnish copies of purchase orders for all goods or manufactured items in connection with this agreement from third parties for delivery to this project without further processing from the Vendor. Vendor further agrees to extend full cooperation to Vendee in the preparation and submission of any claims involving goods and/or services under this agreement and, when requested, to extend full cooperation to the Vendee in the preparation and submission of proposals under Value Engineering Clauses.
- I. Time is of the essence of this agreement. The Vendor, having stated or acknowledged the required delivery date or dates, shall be responsible for the necessary execution of orders, planning, scheduling, correlation of documents, preparation, submission and approval of shop drawings, samples, schedules, templates, coordinating and expediting of shipping procedures and shall do all things necessary to guarantee delivery of this order by the stipulated date or dates. Vendor agrees to exercise due diligence, and to cause each of its authorized agents or representatives to exercise due diligence in executing and processing this order in all of its terms. Vendor agrees to keep the Vendee fully informed as to the delivery status of the materials, goods or services as represented by this order, and to advise the Vendee, in writing, of any delay, circumstance or development in the execution, processing, or shipment of this order which may impair his/her ability to meet the required delivery date or dates or which may otherwise affect the discharge of his/her obligations under this agreement. Should the Vendor fail in this, or in any other requirements of the agreement, Vendee may, at its option and in its sole discretion, modify or cancel this order upon 3 days written notice to the Vendor and Vendee may place or re-place the order, in full or part, with others: all without prejudice to any other right or remedy it may have. Vendor acknowledges liability for damages to the Vendee resulting from the Vendor's failure to perform in a timely manner. In any determination of damages directly attributed to failure or deficiency in the performance of the Vendor it is agreed that Vendee shall recover all damages it may sustain, as well as all costs and attorneys' fees which may arise from the enforcement of any suit for damages under this

agreement. In the event the Vendor is delayed in the performance of his/her obligations under this agreement by any circumstances beyond his/her control, and for which the owner grants time extensions, he/she hereby agrees to notify the Vendee immediately by filing a written request with Vendee's home office for an extension of time within two (2) days of the date on which the first delay occurred; otherwise he/she shall waive any future claim with respect to such delay. Vendee will promptly relay any such request deemed valid to the appropriate authority, but shall not be responsible for its acceptance, nor shall this agreement be construed in any way to require acknowledgement by the Vendee of any cause for the delay to be accepted by cognizant authority.

- J. The Vendee shall have the right, and such it is acknowledged, to withhold a fair and equitable amount from any payment due hereunder pending satisfactory settlement of any claims against the project or against the Vendee by third parties for the account of the vendor, or for disputes involving the vendor or other vendors or subcontractors, wherein the Vendee is directly or indirectly an interested party. It is further agreed that the Vendee may withhold a fair and equitable amount from any payment due hereunder pending satisfactory settlement of any charges, expenses or costs incurred as a result of failure of the materials, goods, or services represented by this order to fully meet the requirements of the plans and specifications. It is further agreed that the Vendee may withhold payment on this order without Vendor's claim for payment or security on the project if Vendor shall fail to honor any representations or warranties, express or implied, as to the materials furnished under any agreement between the parties.
- K. The Vendor hereby agrees to submit or resubmit any and all shop and fabrication drawings, design and performance data, certificates, tests, samples, templates, operating and/or maintenance manuals, schedules, color selections and descriptive product data promptly and as required by the Contract Documents, and/or as directed by the Vendee, all in a sufficient quantity as to adequately provide for the needs of all interested parties. Approval of any of the foregoing by the Vendee, the Owner, or the Owner's authorized agent shall under no circumstances alter the requirements of the Contract Documents or plans and specifications for quality, quantity, finish, dimension, design, and configuration; nor shall such approval constitute acceptance by the Vendee of any method, material, or equipment not satisfactory to the Owner or the Owner's authorized agent; nor shall such approval, or the lack thereof, relieve the Vendor of any of its responsibilities to the Vendee pursuant to this agreement. The Vendor further agrees that the cost of all design, drawings, tests, samples, templates and mock-ups pursuant to this agreement, together with field measurements, sampling and shipping or delivery expense connected with any of the foregoing, is included in the amount of this purchase agreement, except that the Vendor agrees to furnish field measurements upon request which same may be obtained in less than two hours time by supervisory personnel normally present on the project at the time of the request. The Vendor hereby agrees that the entire cost of altering, reworking and refinishing any manufactured or fabricated items not conforming to the approved designs, drawings, templates or samples shall be borne by the Vendor.
- L. Any proposed substitution of materials, equipment, or methods of fabrication for those shown or specified in the contract documents shall be approved in writing by the architect/engineer and by the Vendee if such fabrication is proposed subsequent to bidding. If any such substitution involves changes in the work of the Vendee or others from that required by the original item, and such change has not been brought to the Vendee's attention, in writing, prior to the date of this agreement, the cost of any such change shall be borne by the party making the substitution.
- M. In general, and subject only to the provisions hereof, the Vendor shall be bound to the same Vendee by the same terms and conditions by which the Vendee is bound to the Owner. Vendor agrees to furnish a full lien waiver as a condition of final payment, and further agrees to furnish partial lien waivers, upon the request and at the option of the Vendee. All costs of defending the Owner or the Vendee against claims, including mechanical liens asserted or filed against them by creditors of the Vendor shall be deducted from monies otherwise due, provided that a sufficient balance to cover such costs remains unpaid at the time notification of the claim is received. If the full amount of this agreement has been paid or if balance due is not sufficient to offset such costs, the Vendor agrees to reimburse Contractor for any and all expenses arising from the claim or claims, including reasonable attorney fees and costs.
- N. Vendor acknowledges that he/she has familiarized himself/herself with all of the conditions of the locality, project, plans and specifications and any other factor or circumstance which may affect his/her performance under this agreement, and nothing in this agreement shall obligate or render the Vendee

liable for additional payment to the Vendor on account of his/her misunderstanding or failure to familiarize himself with such factors and conditions.

- O. If called for on the face of this agreement, Vendor agrees to furnish a good and sufficient Supply Bond with a Surety and on a form acceptable to the Vendee within ten days following receipt and execution of this agreement. Vendor further agrees, in the event said Supply Bond is not called for on the face of this agreement and is not an original condition of this agreement, to obtain and furnish such Supply Bond covering the remainder of his/her obligations hereunder at any time during the life of this agreement upon seven days written request by the Vendee. Unless otherwise stipulated, the cost of such Supply Bond shall be borne by the Vendee.
- P. It is agreed that the Vendor shall not assign or sublet this agreement or any part hereof, including payments hereunder, without first obtaining the written consent of the Vendee. Unless specifically waived in writing by the Vendee, it is agreed that Vendee shall have a prior claim against payments due or to become due under this or any other agreement between the parties in the event Vendor fails to comply or shall become disabled from complying with the terms of this or any other agreement between the parties. In the event any claim or claims are asserted against the Vendor by parties supplying material or services to the Vendor for use under this or any other agreement between the parties, it is agreed that set off of the proceeds due or to become due hereunder shall exist in favor of the Vendee retroactive to the date of this agreement.
- Q. In receiving payment hereunder, Vendor agrees to apply such payment only against this order, and only against the account of the Vendee on or for this project, unless written consent of Vendee shall first have been obtained for application of payments, hereunder against some other account.
- R. Vendor hereby agrees, at the option and request of Vendee, to submit any billing for partial or "Progress" payment on a form and with certification as supplied by Vendee.
- S. If the terms of this agreement provide for the purchase of materials on a unit price basis, the unit of measure for payment shall be one for which certified verification of weights or quantities can be furnished at the time of delivery. Otherwise, Vendor agrees that Vendee is without means of ascertaining the accuracy of volumetric or other units of measure at the point and time of load delivery, and agrees that receipt of load tickets by Vendees representative at the point of delivery does not constitute acceptance of Vendor's quantities for payment purposes. In the event the parties fail to agree on the actual quantities delivered, Vendee shall have the right to measure quantities on work in place and make final settlement on the basis of such measurement.

SECTION 5 - INDEMNIFICATION

- A. To the fullest extent permitted by law, Vendor shall defend, indemnify and hold harmless Contractor, the Owner, Architect, Architect's Vendors, any other entities as required by Owner to be named as Additional Insureds, and officers, directors, partners, member, agents and employees of any of them (collectively, "Indemnitees") from and against claims, damages, losses and expenses, including, but not limited to, attorney's fees, arising out of or resulting, whether directly or indirectly, from performance of Vendor's Work and/or Products or Services under the Agreement, to the extent caused in whole or in part by negligent acts or omissions of Vendor or anyone directly or indirectly employed by them or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss or expense is caused in part by a party indemnified hereunder. - D. The obligations of Vendor under this Paragraph shall not extend to the liability of the Architect, the Architect's Vendors, and agents and employees of any of them arising out of:
